Exposed Aggregate Pavers

Stepstone, Inc.’s exposed aggregate pavers come in a variety of colors and sizes. Stepstone still does it the old fashioned way by hand seeding and exposing a layer of 5/8” Del Rio pebble in the face of each and every paver. This hand made process creates an attractive, densely covered aggregate surface that is extremely durable and long lasting.

Patios never looked better and never built more easily than with our 24”x24” square Exposed Aggregate Pavers.
